

## Special Committee Set Up To Study Parking Problem

In response to many complaints, especially by dormitory residents, about the parking situation in Institute parking areas, the Administration is establishing a committee, to be composed of representatives from the dormitories, faculty, and administration, to study the problem.

Nicholas Melissas, '52, president of the Dormitory Committee, has been asked to appoint one representative from each house, another representative to be appointed by the Graduate House. The administration will appoint several faculty members.

The principal cause of the difficulty is the fact that there are just not enough spaces for the number of people requesting permits. In the past it has been administration policy to give first consideration to commuting students because of the inconvenience of public transportation to the Institute especially by railroad.

Possibly, the removal of the parking meters along Memorial Drive will alleviate the problem somewhat. While they have not prevented parking along the drive, they have discouraged it to a certain extent.

## Doble, Frosh of 1916 Cashes Coop Check

Mr. G. E. Cole, President of the Harvard Cooperative Society, recently received a letter from Mr. E. H. Doble of Sandwich, Mass., enclosing a patronage refund check for the fiscal year 1916-1917, the first year that the Technology Store was in operation.

Another check was sent to Mr. Doble, because the first could no longer be honored. His letter read, in part, "In going across some stuff placed years ago in a steel locker, I found this check I had never cashed. I was a freshman at M.I.T. in 1916-1917, later went into the first war and was a prisoner in Germany for eight months." Adding that he was a prisoner when the check was issued, he asked that it be honored now 35 years later.

## Class Standings May Be Deferment Criterion—Hershey

General Louis B. Hershey, Director of Selective Service, announced Wednesday that class standings may be used as a basis for draft deferments next year. He also reaffirmed a statement made last week that if there is an acute need for manpower the passing grade on the college draft examination may be raised from 70 to 80.

Because most draft boards have been ignoring the test scores when considering the student, Selective Service may be forced to re-adopt the class standings criterion. Anyone registered in college this year should not worry, however, as there will be no change in present policy unless the situation in Korea gets worse.

If class standings are used for deferment, a student would have to be in a division higher than the top half to avoid being called. According to General Hershey, the college examinations were established because deferment on a class standing basis was considered unfair. Students in a low division in a large university may be more intelligent than those at the top of their class in a small college.

## Musical Clubs To Present "Elijah" By Mendelssohn

"Elijah," composed by Felix Mendelssohn, will be presented by the M.I.T. Musical Clubs on December 15, 1951, at 8:30 p.m., in Jordan Hall. Jordan Hall, located at 30 Gainsborough St., off Huntington Avenue, has a seating capacity of 1,000 persons. The M.I.T. Musical Clubs, composed of the Choral Society, Glee Club, and Symphony Orchestra, will charge only \$1.00 and \$1.20 for tickets. This is made possible by a recent law stating that tickets for a presentation put on by a non-profit organization will be tax free.

Professor Klaus Liepmann, director of the M.I.T. Musical Clubs, will conduct the oratorio based on the Biblical text of the story of the prophet Elijah and the people of Israel. By displaying the miracles and power of God, Elijah proved that the Israelites' pagan god, Baal, did not exist, but that his God was the only true God.

## Intramural Football Ends In Three-Way Deadlock

### Dr. Fredrich Wyatt Will Lecture On "After Adolescence"

Attitudes toward sex and how they change with maturity will be discussed today by Dr. Fredrich Wyatt at 5:00 p.m. in Huntington Hall, Room 10-250, under the auspices of the Lecture Series Committee.

Dr. Wyatt is the chief psychologist at Cushing Veterans Hospital and Assistant Professor of Psychology at Clark University.

Entitled "After Adolescence" the talk will be a basic discussion of sex, mores and attitudes toward the problem of sex. Dr. Wyatt will include several case histories in the talk.

Everyone is welcome.

### Playoffs Leave Baker, S.A.E., Theta Chi Tied

Last Saturday afternoon SAE won a bitterly contested game from Baker House 10-0, as the first and only touchdown scored on the dorm men all season came on a long pass from Bill Mueser to Ed Porter in the third quarter. The winners had received two points for a safety as the result of a bad pass from center earlier in the game. The only scoring in the last half came when Gino Scalmandre was trapped behind the goal line. SAE played an inspired game and there seemed to be little doubt about the outcome after the first half. Baker House competed without Don Tarinelli and George Zavalakes, both of whom were injured the preceding week.

Theta Chi defeated Theta Delta Chi on Sunday afternoon by a score of 13-8 as Bill Teeple passed for two touchdowns, one to Paul Smith and the other to Pete Conlin. The Theta Deltas, playing without Bob Barlow, Ken Childs, and Mike Nacey, made their only score on an intercepted pass early in the game.

## Professor Deutsch Writes Book On World Nationalism

After witnessing the growth of nationalism and Nazism in Germany, Czechoslovakia, and Austria, Professor Karl W. Deutsch has now written a book entitled *Nationalism and Social Communication*. His interest is in promoting peace and in order to do this, says he, one must understand the problems and difficulties confronting peace. Nationalism is one of the big difficulties.

Three main questions are answered by Professor Deutsch in the book, which will come out this spring. What constitutes membership in a nationality and how can it be measured? In other words, English and Americans speak the same language but they do not have a wide range of common ideas. The second question deals with the political and economic significance of people; and the last question deals with the extent with which one can measure, trace, and predict the changes in nationalism, and its strength. Professor Deutsch compares the speed of assimilating peoples into another nationality with the growth of population and with the speed of industrialization. As an example he cites Sweden overrun by Finlanders who did not speak Swedish. At the end of the nineteenth century, Sweden was run in the Finnish language. Other

## Ruggers Trip Crimson 11-0

Action in last Saturday's Rugby game on Briggs Field.

## Education Group Cites Institute

The Institute was cited today for "outstanding contribution to the advancement of world understanding" by the Institute of International Education, 2 West 45th Street, New York. Technology is a member of the Institute's "Educational Associates," a group of one hundred and twenty American colleges and universities who are contributing to the support of the thirty-two year old Institute. Praising the Institute's active participation in the student exchange movement, Kenneth Holland, President of the In-

stitute, presented President James R. Killian with a special certificate for "bettering the foreign relations of the United States through the medium of the international exchange of persons."

According to Mr. Holland, there are now over 30,000 foreign students studying in American colleges and universities across this country. "In this time of world crisis," he said, "the act of bringing citizens of different nations into personal relationships if carefully planned and skillfully executed can be a concrete step toward world peace."

## Man Expects Paradox In His Religion States Harvard Philosopher Williams

Professor Donald C. Williams, Chairman of the Department of Philosophy at Harvard, addressed a Hillel meeting last Sunday, on the topic "The Philosopher's View of Religion."

The religions of the world, stated Dr. Williams, are full of contradictions. They represent a mixture of sublimity and silliness, of grandeur and absurdity which, in any other context, would appear ridiculous. We, however, EXPECT this paradox in religion. "If we say to someone, 'Surely this is absurd!' and when he replies, 'That's my religion,' we answer, 'I beg your pardon.'" We do not question unreasonableness in religion.

Going on to explain what it was in religion that accounted for such an attitude, Prof. Williams noted that religion concerns the commitment of the whole person towards the whole world in which he finds himself. It is a whole

commitment to the Ultimate. Man cannot understand the world, and he is forced to decide which is the most important feature of that world and to orient himself towards it. In higher religions, this "most important feature" is personified. There are several reasons why this should be so.

Is religion safe? was Dr. Williams' next topic; rather, Are we safe from religion? Religion is deadly dangerous because it is an ultimate commitment. As a world view, religion is a dragon because it involves complete conviction about incredible things, and conviction that one has supernatural knowledge is dangerous.

Would it therefore not be possible and desirable to substitute Philosophy for Religion? was Dr. Williams question. It would not, he concluded, because it does not offer several things: philosophy does not give the unity with one's self

## CALENDAR OF EVENTS

NOVEMBER 21 TO NOVEMBER 27, 1951

WEDNESDAY, NOVEMBER 21

Faculty Meeting. Room 10-250, 3:00 p.m.  
Mathematics Department. Lecture: "Reduced Powers of Cocycles."  
Professor N. E. Steenrod, Princeton University. Room 2-243, 4:00 p.m.  
Richard C. MacLaurin Lodge, A.F. and A.M. Meeting, 4:30 p.m.; dinner,  
6:30 p.m. Masonic Temple, 1950 Massachusetts Avenue, Cambridge.  
All Masons at M.I.T. are cordially invited to attend.  
Catholic Club. Business Meeting. Room 2-190, 5:00 p.m.  
Debating Society. Meeting and elections. Room 14-N406, 5:00 p.m.  
Inter-Varsity Christian Fellowship. Lecture: "Work with Japanese War  
Criminals." Miss Irene Webster-Smith. Room 7-103, 5:00 p.m.  
Lecture Series Committee. Film: "Stanley and Livingstone." Room 1-190,  
5:00 and 8:00 p.m. Admission 30¢.  
Tech Model Aircrafters. Meeting and indoor hand launch glider contest.  
DuPont Room, Room 33-203, 5:00 p.m.  
Hayden Library Film Program. "Mayo Clinic Library Film," "Pipeline  
to the Clouds—Water Supply." Room 14-0615, 5:05 p.m.

THURSDAY, NOVEMBER 22

Holiday. Thanksgiving Day.

FRIDAY, NOVEMBER 23

Classes suspended. All other activities remain unchanged.  
Aeronautical Engineering Department. Seminar: "Problems of Air Line  
Management." Mr. John C. Leslie, Administrative Vice-President of  
Pan American World Airways. Room 33-319, 4:00 p.m. Coffee from  
3:30 - 4:00 p.m. in the DuPont Room.

MONDAY, NOVEMBER 26

School of Architecture and Planning, Department of Building Engineer-  
ing and Construction, and Department of Civil and Sanitary Engi-  
neering. Lecture: "The Certificate of Decision of the Architect or En-  
gineer and its Implications." Mr. Bernard Tomson, New York lawyer.  
Room 7-403, 4:00 p.m.

TUESDAY, NOVEMBER 27

Metallurgy Department. Colloquium: "Production of High Strength  
Electric Weld Line Pipe." Dr. Karl Fethers, Youngstown Sheet & Tube  
Co., Youngstown, Ohio. Room 6-120, 4:00 p.m.  
Lecture Series Committee. Recitations by the poet E. E. Cummings.  
Room 10-250, 5:00 p.m.  
Hayden Library Film Program. "Electronics at Work," "Summer Storm."  
Room 14-0615, 5:05 p.m.

## EXHIBITIONS

A retrospective exhibition of the work of Naum Gabo is on display  
in the New Gallery, Charles Hayden Memorial Library, Monday to Fri-  
day, through November 23, from 10:00 a.m. - 5:00 p.m.

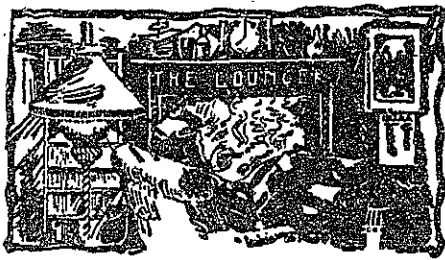

Photographic Salon prints by Bernard G. Silberstein of Cincinnati,  
Ohio, are being shown in the Photographic Service Gallery, Basement  
of Building 11, through November 26.

An exhibition of The Crystal Palace will be displayed in the Lobby  
of Building 7 through December 14.

Technical prints from the Photographic Society of America will be  
exhibited in the Photographic Service Gallery, Basement of Building 11,  
from November 27 to December 10.

## CALENDAR OF EVENTS

The Calendar of Events appears in THE TECH on Tuesday with  
announcements for the following week. Notices for the Calendar of  
Nov. 28 to Dec. 4 must be in the Office of the Editor, Room 7-204,  
not later than 5:00 p.m., on Wednesday, November 21.

By ED EIGEL

Now that Field Day has become a thing of the past, at least until next year, some members of the student body are seeking new outlets for their apparently unlimited energy. In the dorms, these escapades take the form of practical jokes on anyone who is foolish enough to leave his room for an hour or so.

This is not an unusual situation. Practical jesters are a permanent part of college life. They enliven the monotonous days of study. However, it has been noticed that the current tricks are somewhat lacking in originality. They are the same ones which have been used hundreds of times before. An account of one of the more recent of these jokes appeared in last Tuesday's issue of The Tech. In this particular case, a gentleman's room was stuffed from floor to ceiling with wadded paper. On the same day that this happened, another student returned to school to find his room decorated with paper "streamers" hung from wall to wall, and wound intricately among the furniture. The paper theme, in its various forms, is an old favorite. In another trick enjoying current popularity, doors are taken down off their hinges and replaced by smaller ones from closets. This is usually accompanied by what is known as the "mirror effect," in which everything in the room is reversed, from desk drawers to window shades. But again, this is an old trick.

Therefore, it seems that what are needed now, to make life jollier, are some new ideas. Perhaps putting ground glass in the pockets of all the clothes in someone's closet might produce a chuckle or two. Pumping hydrogen sulfide gas under someone's door, although it has been tried once, is still novel enough to amuse the general student body. No matter what they might be, new ideas have to be brought forth for the practical joker must not be allowed to fade from the college campus.

Once in a great while, someone appears on the stage of life who, contrary to human nature, goes out of his way to be helpful. Such a person is Peter Stein—Pete, although not connected with The Tech in any way, shows up at almost every make-up, offering to write up notices, type stories, or do any other job that has to be done. He has, on several occasions,

## Letters to the Editor

Editor, The Tech

Dear Sir:

It seems desirable to enlighten a few, relative to the radio static resulting from the temporary overhead 13,800 volt feeder pole line between Building 8 and the Swimming Pool garden and a shorter run adjacent to Building 12. It was necessary to install this temporary line to supply power to the M.E.V. Laboratory (Building 58) during the construction of the new Biology building.

The Engineering Department of the Cambridge Electric Company was contacted sometime ago, and they in turn sent Mr. J. F. Reilly, who handles this type of problem for the Company, to M.I.T. Mr. Reilly was here on at least two occasions, once in the afternoon and once in the evening to check up on this radio static. Insofar as could be determined, the condition was not developed on our system but was coming in from the Cambridge system.

Since we have had complaints from only one party and these extending over a period of time, and in view of the fact that the F.C.C. does not require local utility companies to eliminate this type of

trouble from their system, it did not seem advisable to spend money to correct this condition on a temporary feeder.

We wish to thank those of you who have been inconvenienced by this particular trouble and have not even bothered to call us. The electrical foreman of the new Biology building informs us that the cable is scheduled to be pulled into the underground system the week of November 19th, and unless there is some difficulty in obtaining cable splicers and scheduling a shutdown of the M.E.V. Laboratory, the 13,800 volt feeder will soon be underground and our present undesirable condition eliminated.

## Football All-Stars Picked, Twelve Teams Represented

With the assistance of twenty men representing twelve of the top teams in the intramural football leagues this year, an all-star team has been chosen. The men selected were recommended by those who saw them in action. Of course many men, particularly those on the weaker teams, may have been passed up, but the two sixteen-man squads listed below represent a consensus of opinion.

### FIRST SQUAD

#### Ends:

Ted Uhler, Baker House  
Bob Barlow, Theta Delta Chi  
Karl Epple, Alpha Tau Omega  
Ed Shea, Delta Kappa Epsilon

#### Guards:

Ken Childs, Theta Delta Chi  
Rich Wilson, Phi Gamma Delta  
John Dawson, Kappa Sigma  
Bob Couillard, Baker House

#### Center:

Arnold Erickson, Alpha Tau Omega  
Dick MacCarthy, Theta Chi

#### Backs:

Bill Mueser, Sigma Alpha Epsilon  
Pete Conlin, Theta Chi

Mike Nacey, Theta Delta Chi  
Stetson Winkfield, Alpha Tau Omega

Don Tarinelli, Baker House  
Tex Hinck, Delta Kappa Epsilon

### SECOND SQUAD

#### Ends:

Dick Beale, Theta Chi  
Phil Crimmins, Baker House  
Larry Garthe, Sigma Nu  
Henry Hohorst, Sigma Alpha Epsilon

#### Guards:

Jerry Carpenter, Delta Kappa Epsilon

Fred Piercy, Theta Chi  
Ed Dickerman, Sigma Alpha Epsilon

(Continued on Page 4)

## Tech Riflers Upset By B. U. Terriers, Beat Worcester Poly

Tech's winning streak of thirteen varsity rifle matches was brought to an end last Saturday morning as a record-breaking Boston University team downed the Beavers in their first match of the season, 1401 to 1396. The defeat came as a surprise to the Tech squad, for, although only two of last year's national championship team were among the twelve Tech shooters, pre-season practices showed this year's team to have great promise. B. U.'s team, nearly intact from last year's graduation, and bolstered by the addition of two experienced transfer students, established a new record for their team and for their newly-completed range.

The match was at first lopsidedly in favor of the Beavers; the B. U. scores were falling far below Tech's which were grouped closely about the respectable score of 279

(Continued on Page 4)

## '53 Wins Interclass Crew, Freshmen Take Track Meet, Seniors Victors In Swimming

In the second interclass swimming meet, which took place at Alumni Pool on Saturday, the senior class showed their superiority by churning to a first place victory with a grand total of 61 points. The freshman class was second with 41 and the graduate students placed third with 24 points.

In keeping with the policy of previous years, no times were given out in order that the element of surprise be kept for the coming swimming season. Unofficial sources indicate, however, that the times were quite good which should be indicative of a good season ahead.

### Crew Results

Rowing into a moderate headwind the class of '53 outraced the class of '52 by one deck length in the annual interclass regatta last Saturday. The Junior class went over the one-mile course in 5:35 with Seniors right behind them with a time of 5:35.2. The Sophomores crossed the finish line two lengths behind with the light varsity behind them.

#### Highlights

The juniors jumped to an early half-length lead and held it for  $\frac{3}{4}$  of a mile. Going into the sprint the seniors closed the gap and the race was neck and neck. In the last ten strokes the class of '53 gained a decklength and crossed the finish line first.

#### Origin of Trophy

Dean Bowditch was on hand to present the trophy to the winning eight. The trophy was the George Henry Richards Interclass Rowing Challenge Cup which was presented to Tech in 1922 by Robert Hallower Richards in honor of his brother, a member of the class of 1860, who lived to be the oldest living alumnus at the age of 102. The cup was first presented in 1923 and this race was an annual event until the war. This is the first year the race has been held since 1940.

As Dean Bowditch presented the cup to the class of '53 he remarked that even though not recommended by the coaches perhaps J. P. was a

(Continued on Page 4)

Piling up perhaps the biggest point total in the history of interclass track competition, the Class of 1955 captured an easy victory in the fall interclass meet held at Briggs Field last Saturday afternoon. Led by Bill Antoine, who amassed 18 points in five events, the Freshman trackmen scored in every event except the mile-run and took the first four places in both the low hurdles and the broad jump.

Chuck Vickers, '52 set the only record of the meet in winning the mile in 4 minutes 37.5 sec., well under the old Fall Interclass mile record of 4:42.8 which was set by Nestor Sabi '37, in the 1936 fall meet. Vickers won without effort as he finished 150 yards in front of the second place runner.

Second place in the meet went to the Sophomores with only 39½ points, while the Seniors beat out the Juniors for third place, 27½ to 24.

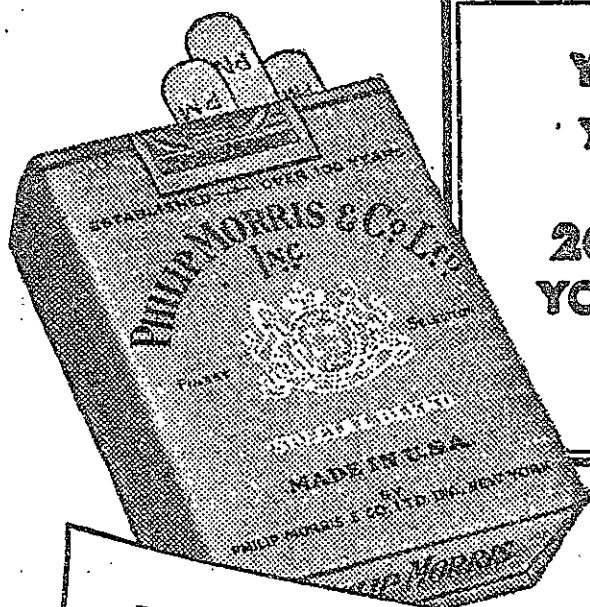

#### Summary:

100-yard dash: 1. Childs '52; 2. Lee '55; 3. Meyerand '55; 4. Antoine '55; 5. Klein '54. Time: 11.0 sec.  
220-yard dash: 1. Grenier '53; 2. Childs '52; 3. Frewitt '55; 4. Klein '54; 5. Meyerand '55. Time: 23.8 sec.  
440-yard run: 1. Grenier '53; 2. Rownd '53; 3. Losh '54; 4. D'Arcy '51; 5. Costen '55. Time: 52.4 sec.  
880-yard run: 1. Schreiber '55; 2. Hill '55; 3. MacPherson '55; 4. Rownd '53; 5. D'Arcy '55. Time: 2 min. 4.8 sec.  
Mile: 1. Vickers '52; 2. Nutley '54; 3. O'Donnell '53; 4. Towne '53; 5. Camp '52. Time: 4 min. 37.5 sec. (new meet record—old record: 4:42.8 by Nestor Sabi '37, 1936).  
2-mile: 1. (tie) Baker '52; and Farquhar '54; 3. Bermann '55; 4. Poulin '55; 5. Dicey '53. Time: 10:50.3.  
160-yard low hurdles: 1. Lee '55; 2. Lattot '55; 3. Kraner '55; 4. Joy '55. Time: 17.1 sec.  
75-yard high hurdles: 1. Lattot '55; 2. Roth '50; 3. Antoine '55. Time: 9.4 sec.  
Pole vault: 1. Sukenik '55; 2. (tie) Smith and McGrew '54; 4. Edgerton '55. Winning height: 10'3".  
High jump: 1. (tie) Antoine '55 and Roth '50; 3. Joy '55; 4. Owens '53. Winning height: 5'3¾".  
Broad jump: 1. Lee '55; 2. Antoine '55; 3. Griffith '55; 4. Bermann '55; 5. Leary '54. Winning distance: 18'0".  
16-lb Shot put: 1. Zoller '55; 2. Childs '52; 3. Antoine '55; 4. Schwenk '54; 5. White '55. Winning distance: 37' 1¼".  
16-lb. Hammer throw: 1. Schwenk '54; 2. White '55; 3. Leary '54; 4. Zoller '55; 5. Stocker '55. Winning distance: 165' 3".  
Discus: 1. Zoller '55; 2. White '55; 3. Schwenk '54; 4. Bermann '55; 5. Leary '54. Winning distance: 165' 4¾".  
Javelin: 1. Bermann '55; 2. White '55; 3. Rownd '53; 4. Joy '55; 5. Camp '52. Winning distance: 129' 0".

SOMERSET**

## NOTICES

## S.A.M.E.

On November 27 the M.I.T. student chapter of the Society of American Military Engineers will hold an organizational meeting for the purpose of approving its constitution. It will be held in the Faculty Lounge, Walker Memorial, at 5:00 p.m. today. Plans for future meetings, field trips and social activities will be discussed. Eligible for membership in the chapter are not only those enrolled in ROTC, but anyone else taking a course in engineering.

## L.S.C. Movie

On Wednesday, Nov. 21, in Room 1-190 at 5 and 8 p.m. the Lecture Series Committee will present the motion picture "Stanley and Livingstone" starring Spencer Tracy and Walter Brennan. Admission is 30 cents.

## Catholic Club

The Catholic Club meeting scheduled for Wednesday, November 21, and announced in this week's Calendar of Events, has been cancelled because of the Thanksgiving holidays. The next regular weekly meeting will be held in Room 2-190 at 5:00 p.m. on Wednesday, November 28.

## Marketing Club

Mr. Charles F. Brown, Jr., marketing research director of Wm. Filene's Sons Company, will speak on "Retailing in the Department Store" at a meeting of the M.I.T. Marketing Club in the Moore Room, 6-321, at 5:00 p.m. Tuesday, November 20. All interested students and faculty members are invited. Membership cards will be available at the door.

## Interclass Crew

(Continued from Page 3)  
good conditioner for the Juniors.  
The lineup of the boats were as follows:

BOATINGS			
Seniors		Juniors	
Row	Stengel	Row	Spracher
2	McGinley	2	Erickson
3	Weiss	3	Gleckman
4	Shurman	4	Palmer
5	Semple	5	Forman
6	Brodak	6	Lindstrom
7	Casson	7	Stern
Stroke	Jam	Stroke	Buntsehuh
Cox	Adams	Cox	McKay
Sophs			
Row	Baczewski	Row	Stanfield
2	Hair	2	McGrath
3	Hartick	3	Ayers
4	Kolodkin	4	Scarborough
5	Reidinger	5	Brink
6	Hofman	6	Gallagher
7	Alsen	7	Heseltun
Stroke	Perrin	Stroke	Fast
Cox	Waye	Cox	Rempert

## Rifle Team

(Continued from Page 3)  
x 300. On the last relay, however, B. U. pulled the match out of the fire with scores of 288, 286, and 284, all exceeding the M.I.T. high of 282.

The Tech riflemen looked like last year's team when they returned to their range to engage Worcester Polytech in a practice match. The high five of the Beavers scored 288, 285, 284, 283, and 280, for a total of 1420, against Worcester's 1346.

## Lounger

(Continued from Page 2)  
written stories for the paper. Through this acknowledgment, we would like to extend our thanks. Take a bow, Pete.

Two weeks ago, the Radcliffe News devoted an entire issue to the Institute and the various aspects of life here. The issue covered everything from living groups to The Tech-Voo Doo rivalry, from academic interests to jokes on Harvard University. Of particular interest, however, was an editorial on why 75% of the Radcliffe girls marry Harvard men, and an accompanying story on the ideas Techmen and Radcliffe girls have concerning each other. Apparently, we don't appreciate the gals as much as we should; they obviously have the wrong ideas about us. Their solution, a most promising one, was getting better acquainted. Maybe the girls at Radcliffe are growing weary of the Harvard men. Anyway, there doesn't seem to be much objection to their plan from this end.

## BASKETBALL SCHEDULE

All Sunday games and games beginning at 7:15 or 8:30 are to be played in Walker. The others are to be played in the Armory.

Sunday, November 25  
2:00—Sigma Alpha Mu vs Phi Lambda Phi

## Deutsch

(Continued from Page 1)

questions answered are: why do people listen to nationalistic theories? When is nationalism a success and when it is a failure? Why is it so popular in Asia today?

Professor Deutsch came to the United States in 1938 and came to the Institute four years later. He was on the staff of the secretariat at the conference founding the charter of the United Nations. Born in Prague, Professor Deutsch studied at that university and also at the University of London and at Harvard.

## Lacrosse Rally

At the Winter Lacrosse Rally, Wednesday, November 14, Coach Ben Martin expressed unusually optimistic hopes for the '52 season. "The team has more potential this year than at any time while I have been here, with the possible exception of the war years," he said.

Winter practice will begin Monday, November 26, and continue until Christmas vacation. The turn-outs will be at 4:00 P.M. Monday, Wednesday, and Friday.

## Williams

(Continued from Page 1)

and one's fellows; it destroys convictions and does not have religion's conciliatory value.

Should we, then, let people believe in improbable things just because it saves them from an emptiness and non-direction in life? Should we be religious? Dr. Williams offered no answer. He merely stated that he did not believe in any religion, but that for him the existence of a spiritual dimension seemed highly probable and he is waiting for further proof to develop. We believe religion as practiced today is undesirable in many respects but necessary simply because there is something terrible and hideous about its absence as seen in Hitler and Russia. Dr. Williams stated that it is not probable that any one religion is right, but that it is probable there is some supernatural spiritual government of the world.

## Barbell Team Loses

On Sunday, Nov. 4, the Springfield College Barbell Club out-lifted the Tech Barbell Club by a score of 31-15.

Individual results:

Class	Name	Team	Pts.	Total
123	Darvick	SPR.	5	335
132	Alexander	M.I.T.	3	470
	Stubblebine	SPR.	3	365
	Pelletier	SPR.	1	325
148	Roberts	M.I.T.	5	315
	Loftus	SPR.	5	800
	Oberste	M.I.T.	2	420
	Thompson	M.I.T.	1	410
185	Maresca	M.I.T.	5	540
	Carr	SPR.	3	525
	Hartsol	SPR.	1	425
	Augusta	M.I.T.	5	605
	Golden	M.I.T.	5	490
	Lubin	M.I.T.	5	470
181	Arsenault	SPR.	5	595
	Parker	SPR.	3	545
	Blum	M.I.T.	1	515
	Warren	M.I.T.	5	475
Heavy	Baillie	SPR.	5	710

One of the weaknesses of the Barbell Club is shortage of men in the light and heavy classes. All men who are in these body-weight classes are urged to contact the club if they are in any way interested.

## Campus Interviews on Cigarette Tests

No. 27...THE LYNX

This sporty student really teed off on a long tirade when he found himself stymied on the "single puff" and "one sniff" cigarette tests. "They're strictly for the birdies!" said he. He realized that cigarette mildness requires more deliberation than a cursory inhale or exhale. Millions of smokers concur — there's only one true test of mildness and flavor in a cigarette.

It's the sensible test . . . the 30-Day Camel Mildness Test, which simply asks you to try Camels as your steady smoke on a day-after-day, pack-after-pack basis. No snap judgments! Once you've tried Camels for 30 days in your "T-Zone" (T for Throat, T for Taste), you'll see why . . .

After all the Mildness Tests . . .  
**Camel leads all other brands by billions**
